

Reykjavík, 21/08/07

Dear Members of ICYE EA.

I am writing this letter to inform you why I am applying for the Chair of the ExCom. of ICYE EA.

For the last three years I have been in the board of AUS-ICYE Iceland. My tasks there have been for example organising camps, supporting the office and developing the organisation into the future.

At the last EAGA in Aarhus I got to know the work of the EA and ExCom and got interested in the organisation, what it stands for and how it works.

The aim of the EA is something I strongly believe in and am willing to work for. I believe that the members can benefit with EA being a platform for sharing information and having a strong body to represent them in at European level.

I have gained a lot of experience during the last 3 years, both working with AUS and student organisations in the University of Iceland. I am organised and work well in a group. I have experience being a representative and being a co-ordinator between organisations.

With my experience with AUS and other organisations and my interest in the EA, I believe that the EA could gain a lot, and at the same time, so would I.

Sincerely,

Ragnhildur Einarsdóttir
